

RESUME

SUNISA SODSRIJAN

SOFTWARE TESTING

ABOUT ME

A Mathematics and Computer Science student with a solid foundation in Software Testing Fundamentals and strong logical thinking skills. Highly motivated to apply knowledge in statistics, algorithms, and programming through a cooperative education program as a QA / Test Engineer, contributing to the delivery of high-quality and defect-free software.

EDUCATION

2024 - Present

King Mongkut's University of Technology North Bangkok
Bachelor of Science in Mathematics with Computer Science, Faculty of Applied Science
(GPA: 2.26)

2018 - 2024

prasatwittayakarn School
Science Mathematics
(GPA: 3.45)

Nickname : bebell

DOB : 02/03/2005

Age : 21

Nationality : thai

SKILLS

Language:

- Python
- C#
- TypeScript
- React
- SQL

Program:

- Microsoft Visual Studio Code
- Microsoft Visual Studio

MINI PROJECK

- Developed an interactive web-based number guessing game (1-100) using React, TypeScript, and Vite, focusing on responsive design and modern Dark Mode UI.
- Designed and executed comprehensive Test Plans, Test Scenarios, and 50+ Test Cases covering product cataloging, dual-category filtering (dietary food vs. toys), and end-to-end checkout flows.
- Designed an end-to-end dining and POS experience for a Korean BBQ buffet, bridging mobile self-ordering for customers with operational dashboard for floor staff.
- Performed thorough Negative & Boundary Value Testing on search inputs, testing special characters, numeric strings, leading/trailing whitespace, extreme text lengths, and Thai tone mark/vowel combinations.
